

Job advertisement No. 1/2022

As the German National Library of Science and Technology our future-oriented services ensure the infrastructural requirements for a high-quality supply of information and literature for research in science and industry. Our services as a university library secure the local supply for the Leibniz University Hannover.

The [Technische Informationsbibliothek \(TIB\)](#) – Leibniz Information Centre for Science and Technology – Program Area C, Research and Development, is looking to employ a

Web and UI Software Engineer (m/f/d)

to join the [Data Science & Digital Libraries Research Group](#) (Prof. Dr. Sören Auer) at the earliest possible opportunity.

The position is initially limited to 3 years with envisioned extension. The regular weekly working time is 39.8 hours (full-time). The position is only suitable for part-time work to a limited extent. The remuneration is based on [pay scale group 13 TV-L](#).

Your challenge

We are looking for a Web and UI Software Engineer to work in the TIB Research & Development Department. You will be responsible to develop innovative and mature information services for the TIB stakeholders in Science and Technology, in particular in the context of German National Research Data Infrastructure initiatives ([NFDI](#)) and the European Open Science Cloud ([EOSC](#)).

Possible work areas include (but are not limited to)

- Semantic Scholarly Communication and Metadata - in the context of our Open Research Knowledge Graph ([ORKG](#)) and [OpenResearch.org](#) initiatives
- Collaborative Knowledge Graph Management - requires good knowledge of semantic data management technologies
- Exploration & Search of Research Data - requires human-computer interaction, information visualization and retrieval expertise
- Question Answering Infrastructure (WDAqua/Qanary) - requires excellent skills in semantic technologies and natural language processing

Your qualities

Your competence area should be squarely rooted in web software engineering, you should be able to think creatively, grasp new knowledge quickly, be able to design and develop innovative software systems and be interested in mastering complex challenges.

The ideal candidate holds a Master's degree in Computer Science, Mathematics or a related field of study. Furthermore we expect:

- Proficiency in spoken and written English; proficiency in German is a plus
- Excellent proficiency in modern Web development languages (esp. JavaScript, Java), related frameworks (e. g. React) and modern software engineering methodologies (esp. agile methods, DevOps)
- Proven experience in software development in a team environment

- Experience and interest in user-centric design and modern UI development as well as crowd-sourcing and collaborative community applications is a plus
- Familiarity with Semantic Technologies, Data Management, Human-Computer Interaction, Natural Language Processing, Artificial Intelligence, Data Analytics or Digital Libraries is an asset

What we offer

In [TIB's Research and Development Department](#), you have the opportunity to further your scientific development in a dynamic and excellent research environment. We provide a scientifically and intellectually inspiring environment with an entrepreneurial mindset embedded in a [leading technical university](#) and one of the largest technical information centres being part of the [Leibniz Association](#).

The research department at the TIB is relatively young and offers many opportunities. It is our vision to rethink the representation and provision of data and information and to organize them in an Open Research Knowledge Graph ([ORKG](#)) in the future. There is a close cooperation with the [L3S Research Centre](#) at Leibniz University Hannover, one of the world's leading research institutes in the field of Web & Data Science, within the Leibniz [Joint Lab](#) Data Science & Open Knowledge.

Last but not least, we attach great importance to an open and creative working atmosphere in which it is fun to work.

Furthermore, we offer

- Funding for necessary equipment, conference and research visit travel
- Work in the context of a national, European or international research and innovation project
- A portfolio of technology components to build on, including [ORKG](#), [OpenResearch.org](#), [TIB AV-Portal](#), [DBpedia.org](#) and other
- A modern workplace in a central location of Hanover with a collegial, attractive and versatile working environment
- Flexible working hours (flexitime) as well as [offers for reconciling work and family life](#) such as mobile work and remote work options
- An employer with a wide range of internal and external further education and training measures, workplace health promotion and a supplementary pension scheme for the public sector ([VBL](#))
- Discount for employees in the canteens of the [Studentenwerk Hannover](#) as well as the possibility to use the various offers of the [University Sports Hannover](#)
- A job in the public service with a salary in [pay scale group 13 TV-L](#), according to the provisions of the collective agreement for the public service in Germany (TV-L), including a special annual payment and 30 days of vacation per year

If you are interested, questions regarding the position can be addressed to Prof. Dr. Sören Auer, Director of TIB and head of the TIB research department, by mail at auer@tib.eu.

How to apply

We look forward to receiving your application. To submit your application, please click [here](#).

Paper applications are also possible on an equal basis. In this case, please send your complete application documents with the subject **1/2022** before **February 01, 2022** addressed to

Technische Informationsbibliothek (TIB)
Personalservice
Herrn Daniel Eilers

Welfengarten 1 B
30167 Hannover
Germany

or alternatively as a single PDF document file to bewerbung@tib.eu. For applications in digital form, please send a PDF file with a maximum size of 10 MB.

Who we are

TIB, being part of the Leibniz Research Association, is with around 550 employees one of the largest technical information centres in Germany, having three main functions:

1. Acting in the capacity of the Leibniz Information Centre for Science and Technology, our forward-looking services secure the infrastructural requirements for providing researchers in science and industry with high-quality information and literature.
2. Carrying out cutting edge research to further expand TIB's role as a German information centre for the digitisation of science and technology.
3. Offer library services for the Leibniz University Hannover.

TIB is an equal opportunity employer, providing ideal working conditions, and continuously taking action to enable its employees to combine career interests with family life. It wants to promote equal career opportunities for women and men in particular and therefore urges qualified women to apply.

Severely disabled candidates with comparable qualifications will be given preferential treatment. We welcome applications from all nationalities.

Please note that your application documents will not be returned and application and travel costs cannot be reimbursed.

Please indicate in the subject line of your application through which job board you became aware of our offer.
